**Warren County
Food Waste Recycling Forum
“Save Today, Save Tomorrow”**

November 2, 2009

Warren County Administration Building,
Rutgers Cooperative Extension Service meeting room
165 County Route 519 South, Belvidere, NJ 07823-1949
Telephone: 908-475-6532

5:30 PM. registration; 6:00 PM. to 9:30 PM.

Free registration, Sandwiches/dinner, etc. provided.

- Attend a training session to learn one of the least costly ways of reducing our state’s methane emissions—recycling food waste.
- Food waste recycling facilities are developing locally, so you can start saving money and greenhouse gases now!
- Did you know that recycling food waste is a cost effective way of reducing your greenhouse gas footprint, by preventing harmful emissions of methane from our landfills?
- Obtain CEUs for Recycling (CRP) and Public Works (CPWM)

Thank you to:

Platinum Level Sponsor: *Premier Food Waste Recycling*

Silver Level Sponsor: *Trenton Fuel Works*

Bronze Level Sponsors:

***Peninsula Compost • Converted Organics • Bayshore Recycling
Insinkerator • Public Service Enterprise Group (PSEG)
Terracycle • PMC - Chinnet Distrib. • United Trucking • Ellen Vastola***

**MAJOR SUPPORT FROM US EPA-REGION 2 AND RUTGERS-NEW JERSEY
AGRICULTURAL EXPERIMENT STATION**

Attend the Solid Waste Resource Renewal Group's Warren County Food Waste Recycling Forum to learn these "nuts & bolts":

- Options for food waste recycling now and in the future and their economic benefits;
- Facilities under development in New Jersey and their diverse environmentally-friendly products;
- On-site technology and options that may serve your business/entity;
- Use of the EPA's *Wastewise* free WARM model to calculate greenhouse gas reductions in order to promote your sustainable organization for a competitive business advantage;
- Municipal incentives to encourage purchase of recycled materials to support food waste recycling within their borders.

This assistance in altering your waste system provided by:

Priscilla Hayes, Esq., from Solid Waste Resource Renewal Group at Rutgers University, from 1997, as the SWRRG Director has researched and taught about environmental issues such as: computer recycling, food waste composting, environmentally preferable purchasing, paint recycling and, the current project of bringing a food waste recycling industry to New Jersey.

Dr. Nick Smith-Sebasto, Kean University, is an associate professor in the College of Natural, Applied and Health Sciences. He will discuss the food waste digester he brought to Montclair University.

Mike Manna, from Organic Recycling Solutions LLC, NJ, has more than 25 years in the recycling industry with materials such as paper, cardboard, food waste, green waste, and tires and also sources materials such as soils, compost, and mulch.

Lorraine Graves, from U.S. EPA Region 2, and has been with Solid Waste Management Program since 1991. Her focus has involved promoting source reduction strategies in general as well as managing programs in electronics, food waste and organics, construction and demolition debris reuse and recycling, as well as tribal solid waste.

And more, including representatives from emerging recycling facilities and companies & other vendors!

Organized by: Warren Planning Dept., Warren Cooperative Extension and the Rutgers/NJAES Solid Waste Resource Renewal Group (SWRRG).

To register, please contact Ellen Vastola, Rutgers University,
vastola@aesop.rutgers.edu.

If you have questions. contact Priscilla Hayes: 732-932-9155 ext. 233,
hayes@aesop.rutgers.edu www.swrrg.rutgers.edu

SWRRG is a recipient of a 2009 US EPA Region 2 Award for Environmental Quality.
